Vantec Teams Up With Benfield

At the end of February, Cherry Blossom Way became host to Benfield Gateshead's Roadshow which was put on to display their range of Nissan models; the cars were available to view on site and information was given on availability and finance schemes. The Roadshow was a result of Vantec becoming included on Nissan's approved list of suppliers as of 1st February 2013 making Vantec staff finally eligible for the Level 2 Supplier Purchase Scheme.

Vantec employees from various sites visited CBW over the 2 dates set up by Benfield, Friday 22nd and Monday 25th February, for the chance to meet with a member of Benfield staff and learn more about the scheme on offer.

As part of the commitment between Benfield and Vantec, Benfield have reduced the labour rate in their workshop and a 10% discount on parts for all employees.

In addition to this, we have also negotiated a reduced hourly rate for all Vantec employees at the body repair centre at the depot in Gateshead, which carries out small paint work repairs and minor damages.
