Mission Possible

MISSION POSSIBLE

Staff are being informed to take notice in the coming weeks of introductions to a new Vantec initiative 'MP2015'. Vantec International Operations Midterm Plan 2015, nicknamed as 'Mission Possible', is Vantec's 3 year plan to enhance company growth and reach key corporate goals such as doubled sales, sustainable profitability and additional significant growth through M&A. MP2015 will be introduced throughout the company by a series of posters, and a campaign will be run throughout the coming months to ensure that every employee is doing their bit in order to allow these goals to happen. Look out for future updates on the campaign which will be given in due course.
