North East hosts first AGM outside of Japan

Vantec Europe, based in Washington, was chosen to host the first ever Vantec Corporation annual general meeting outside of Japan.

Executives from the firm's head offices from around the world attended the three day meeting from 2nd - 4th September.

The decision to meet in Sunderland comes after a string of successes for Vantec Europe, which includes the opening of our £22.5m, 421,000 sq ft warehouse on the North East Enterprise Zone at Turbine Park Sunderland in 2012, followed by securing additional business with Nissan in Russia.

The AGM was held at Sunderland City Council's Washington Business Centre within the Enterprise Zone.
